

# FIX ME UP

MEDICAL SPA & SALON

## Recommended Pre & Post Care for Hair Reduction Treatments

*For best results please follow these instructions*

### Before your treatment:

- Hair should be cleanly shaven
  - Leave a representative sample unshaven for clinician to assess
- Do not wear makeup on the treated area the day of treatment
- No sun-tanning or self-tanners 4 weeks prior to treatment
  - Includes spray tans, tanning lotions, tanning beds, sun exposure, etc.
- Some medications or supplements may increase the risk of bruising. Consult with your physician
- No waxing or tweezing at least 4 weeks prior to treatment
  - Some body parts may require a longer wait time
- Avoid treatments that may irritate the skin for 1-2 weeks prior to treatment (depilatories, harsh chemicals, etc.)
- Notify clinic with any changes to your health history or medications since your last appointment
- History of herpes or cold sores may require an anti-viral prescription prior to treatment

### After your treatment:

- Avoid sun exposure and use a broad spectrum (UVA/UVB) sunscreen
  - Redness and perifollicular edema (appearance similar to a rash/bug bites) are common and resolve with time
  - Bruising and swelling are less common but may occur and will resolve with time
  - Hair may take up to 2 weeks to fall out
  - Avoid heat – hot tubs, saunas, etc. for 1-2 days
  - Avoid skin irritants (examples below) a few days post-treatment
    - Products containing tretinoin, retinol, benzoyl peroxide, glycolic/salicylic acids, astringents, etc.
  - Do not wax or tweeze between treatments
  - Notify clinic of any concerns (blistering, excessive redness/swelling, etc.)
  - Hair removal requires a series of treatments. The number of treatments depends on body location and type of hair.
  - Consult with clinic about when to resume skin care regime.
